 - (b) if that position or office ceases to exist or the classification of the position or office is changed—the salary of that position or office immediately before it ceased to exist or its classification was changed (adjusted if any increase occurs in the rate of salary payable in respect of the contributor's position or office by a percentage equal to the percentage that the increase bears to that salary).
- (4c) The fixing of a contributor's contributions in relation to a financial year under section 23(4)(a) following a reduction in a contributor's rate of salary will be based on the contributor's notional contribution salary pursuant to an election under subsection (4a) only if the contributor made the election under that subsection on or before the 31 March last preceding the commencement of the financial year.
- (5) If it is necessary to calculate what would have been the amount standing to the credit of a contributor's contribution account, as at a particular time and the contributor had contributed at the standard contribution rate throughout his or her contribution period, the calculation may be made as follows:

Where—

C is the number of months in the contribution period

P is—

- (a) in the case of a contributor who was in full-time employment throughout his or her contribution period—1;

 - (b) if a person is employed in employment to which this Act applies for a particular term and the term expires, the person will be taken to have resigned—
 - (i) if he or she makes an election under this subparagraph—at the expiration of the term; or
 - (ii) if no election is made under subparagraph (i)—at the expiration of 12 months from the expiration of the term except where the person is re-employed in employment to which this Act applies (not being employment on a casual basis) before that time in which case any interruption of employment will be ignored;
 - (c) a person whose employment is terminated on the ground of incompetence will be taken to have retired or resigned from employment depending on whether he or she has then reached the age of 55 years.
- (7) A person referred to in subsection (6)(b) cannot make contributions under this Act in respect of a period before he or she is taken to have resigned under that subsection and during which he or she is not employed in employment to which this Act applies.
- (8) For the purposes of this Act a contributor who is on leave without pay is not an active contributor if a contribution payable by the contributor has remained unpaid for 14 days or more.
- (9) Subsection (8) does not apply if the contributor did not know, and could not reasonably have been expected to know, that the contribution had remained unpaid for 14 days.

 - (b) if the account is in the name of a new scheme contributor—to reflect a rate of return determined by the Board in relation to the contribution accounts of new scheme contributors for the relevant financial year.

-
- (4) In determining a rate of return for the purposes of subsection (3), the Board should have regard to—

- (6) If it is necessary to determine the balance of a contributor's account and the Board has not yet determined a rate of return in relation to the relevant financial year, the balance will be determined by applying a percentage rate of return on accounts estimated by the Board.
- (6a) A balance determined under subsection (6) will not be adjusted when a rate of return is subsequently determined under subsection (3).
- (7) A reference in this section to *rate of return* is a reference to a positive or a negative rate of return.

- (2) If any such payment, or a proportion of any such payment, is, under this Act, to be charged against the contributor's contribution account or against the Fund, the Treasurer may reimburse the Consolidated Account or special deposit account by charging the relevant division of the Fund with the amount of that payment or the relevant proportion of that payment (as the case requires).
- (3) If any such payment, or a proportion of any such payment, relates to a rollover account or a co-contribution account, an amount equal to the amount of the payment is to be charged against the appropriate account and the Treasurer may reimburse the Consolidated Account or special deposit account by charging the relevant division of the Fund with the amount of that payment or the relevant proportion of that payment (as the case requires).

- (3) The Board may require an applicant to provide satisfactory evidence of the state of the applicant's health.
- (4) The cost of any medical examination to which an applicant is required to submit under subsection (3) will be paid by the Board.
- (5) If it appears to the Board—
 - (a) that an applicant's state of health is such as to create a risk of invalidity or premature death; or
 - (b) that an applicant has in the past engaged in an activity of a prescribed kind that increases the risk of invalidity or premature death; or
 - (c) that the applicant is likely in the future to engage in an activity of a kind referred to in paragraph (b),

the Board may accept the application on conditions (being conditions authorised by the regulations) limiting the benefits payable under this Act in the event of the contributor's invalidity or death before the age of 55 years (and such a condition prevails over this Act to the extent of any inconsistency).

- (5a) Unless conditions referred to in subsection (5) provide otherwise, a contributor whose benefits in the event of invalidity or death are limited by conditions under that subsection or by conditions referred to in clause 7 of Schedule 1 is not entitled to a disability pension under Part 4 or 5 in respect of the illness, condition or disability to which the limitations relate during the period of 5 years from the commencement of this Act or the contributor's acceptance into the Scheme whichever is the later.
- (6) If an applicant—
 - (a) is a contributor to some other superannuation scheme funded wholly or in part by the applicant's employer; or
 - (b) receives an allowance or salary loading related to superannuation,the Board will, unless there is good reason to the contrary, reject the application.
- (7) The Board cannot accept an application from a person who is employed on a casual basis.
- (8) If it appears to the Board that a contributor withheld information required in relation to his or her application for membership of the Scheme, the Board may withhold or reduce a benefit under this Act (other than one that is to be charged against the contributor's contribution account).
- (9) The contribution period of an employee accepted as a contributor will commence on the date fixed for that purpose by the Board.

- (10) Subject to this section, an application for acceptance as a contributor under subsection (1) must be made on or before 3 May 1994.
- (11) A person who commenced employment to which this Act applies on or after 3 February 1994 pursuant to a written offer received by the person on or before 3 May 1994 may make an application for acceptance as a contributor under subsection (1) on or before 3 August 1994 or the expiration of 3 months after the employment commenced whichever is the later.
- (12) An application under subsection (1) will be taken to have been made on the day on which the application was received by the Board.
- (13) An employee who is not a person referred to in subsection (11) may apply for acceptance as a contributor under subsection (1) on or after 4 May 1994 and before 1 July 1995 but if accepted the contributor will—
- (a) be a member of the Triple S scheme on and from 1 July 1995 and will be taken to have elected to contribute to that scheme at the rate of 6 per cent of salary; and
 - (b) will be taken to be under the age of 55 years and to resign from employment for the purposes of this Act on 30 June 1995 and to carry over the employee component of his or her accrued superannuation benefits on 1 July 1995 to his or her member's contribution account under the Triple S scheme and to carry over the employer component of those benefits on 1 July 1995 to his or her employer contribution account under that scheme.
- (14) An employee may make an application for acceptance as a contributor under subsection (1) on or after 4 May 1994 if he or she—
- (a) had been a member of the Police superannuation scheme; and
 - (b) had resigned or retired from the employment that entitled him or her to membership of that scheme in order to take up employment to which this Act applies; and
 - (c) had taken up that employment within 3 months after resignation or retirement from the previous employment; and
 - (d) in the case of resignation from the previous employment, had preserved his or her benefits under the Police superannuation scheme.
- (15) Subject to subsection (16), the application referred to in subsection (14) must be made within 3 months after the employee commences employment to which this Act applies.
- (16) An employee referred to in subsection (14) who commenced employment to which this Act applies during the period commencing on 3 February 1994 and ending on the commencement of the *Superannuation (Employee Mobility) Amendment Act 1997* may make an application for acceptance as a contributor under subsection (1) within 3 months after the commencement of that Act.

(17) The Board may not refuse an application by an employee referred to in subsection (14) on medical grounds and the only conditions that the Board may place on its acceptance of such an application are those conditions (if any) to which the employee's membership of the Police superannuation scheme had been subject immediately before his or her retirement or resignation from the previous employment.

(18) An employee referred to in subsection (14) who is accepted as a contributor under subsection (1) is only entitled to his or her benefits under the Police superannuation scheme after his or her employment to which this Act applies has terminated.

(19) In this section—

Police superannuation scheme means the old or new scheme of superannuation established by the *Police Superannuation Act 1990*.

23—Contribution rates

(1) Subject to this section, a contributor will make contributions to the Treasurer at the standard contribution rate until termination of the contributor's employment.

(2) Subject to subsection (2a), a contributor may elect—

(a) to contribute at any 1 of the following rates:

3.0%

4.5%

6.0%

7.5%

9.0%;

(b) to cease contributing;

(c) in the case of a contributor whose standard contribution rate is not 6%—to contribute at the contributor's standard contribution rate.

(2a) A contributor who is employed pursuant to a TEC contract must contribute at the contributor's standard contribution rate or at a higher rate referred to in subsection (2) unless he or she was contributing at a lower rate during the financial year in which the term of the contract commenced in which event he or she must contribute at that rate or a higher rate referred to in subsection (2).

(2b) Subsection (2a) operates in relation to the financial year following the financial year in which section 5A of the *Superannuation (Miscellaneous) Amendment Act 2000* comes into operation and in relation to subsequent financial years.

(3) Subject to subsection (3a), an election under subsection (2) can only be made in a manner approved by the Board and will operate as from the commencement of a financial year (and only elections received by the Board 2 months or more before the commencement of a particular financial year will operate in relation to that financial year).

(3a) If the Board is satisfied that a contributor needs to reduce his or her contributions because of financial hardship, the Board may permit the contributor to make an election under subsection (2) that will operate before the commencement of the next financial year.

- (4) A contributor's contributions will be fixed in relation to each financial year, as from a day in that financial year determined by the Board—
- (a) on the basis of the contributor's salary as at the 31st day of March last preceding the commencement of the financial year or, if the contributor's hours of employment have increased or decreased between that date and the commencement of the financial year, on the basis of the contributor's salary following the last such increase or decrease in the hours of employment; but
 - (b) —
 - (i) if the contributor had not then commenced his or her employment, the contributions will be fixed on the basis of the contributor's commencing salary;
 - (ii) if the contributor was then on leave without pay or at a reduced rate of pay, the contributions will be fixed on the basis of the salary that the contributor would then have been receiving if not on leave;
 - (iii) if the contributor's employment is of a casual nature, the contributions will be fixed on the basis of a notional salary fixed by the Board in relation to the contributor;
 - (iv) if after the date on which contributions for a particular financial year are fixed there is a reduction in the contributor's salary resulting from a reduction in hours of work (other than a temporary reduction of less than 2 weeks' duration), there will be a proportionate reduction in the contributor's contributions (but such a contributor may, with the Board's approval, elect to contribute as if there had been no reduction in salary and in that event benefits payable under this Act will be calculated as if there had been no reduction of salary);
 - (v) if the reason for the reduction in hours of work is an illness or injury suffered by the contributor, an election under subparagraph (iv) may, with the Board's approval, operate during subsequent years despite paragraph (a).
- (5) If over a particular period a contributor receives (while remaining in employment) weekly workers compensation payments for total or partial incapacity for work, contributions will be payable as if the weekly payments were salary or a component of salary (as the case requires) but if the aggregate of the weekly payments and the salary (if any) of the contributor is less than the salary that the contributor would have received if not incapacitated, the Board may allow a proportionate reduction in the amount of the contributions for that period.
- (6) The following provisions apply to leave without pay—
- (a) any period of leave without pay of 2 weeks or less will be treated as a period of employment in respect of which contributions are payable;
 - (b) if leave without pay is taken for a continuous period exceeding 2 weeks, no contribution is payable in respect of that period unless the contributor elects to contribute and the election is approved by the Board (but such an election in respect of more than 12 months' leave without pay can only be made—
 - (i) if the Board is satisfied with arrangements that have been made for reimbursement of the cost of benefits attributable to that period; and

- (ii) in circumstances in which the approval is authorised by the regulations).
- (6a) If a contributor has been, or will be, on leave for more than 12 months and the period of leave is, or will be, made up of 2 or more components of leave without pay connected by 1 or more components of paid leave, an election under subsection (6)(b) in relation to a component of that period that will extend it beyond 12 months or that commences after the first 12 months of the period has passed must comply with the requirements of that subsection even though the component itself is less than 12 months in duration.
- (7) An old scheme contributor will cease to contribute if—
- (a) before termination of the contributor's employment the following conditions are satisfied:
 - (i) in the case of a person who was accepted as a contributor under the repealed Act—the contributor is of or above the age of retirement and has—
 - (A) an aggregate of 360 contribution points; or
 - (B) an aggregate number of contribution points equal to the number of months between the date on which he or she became a contributor and the date on which he or she reached the age of retirement,whichever is the greater number;
 - (ii) in the case of a person who was accepted as a contributor before the commencement of the repealed Act—the contributor is of or above the age of retirement and has an aggregate of 360 contribution points; or
 - (b) on retirement he or she would be entitled to the maximum pension prescribed by section 34(5).

24—Contribution points

- (1) A contributor conforms to the theoretical standard if the contributor—
 - (a) is employed on a full-time basis; and
 - (b) contributes at the standard rate of contribution.
- (2) Contribution points accrue to a contributor who conforms to the theoretical standard at the rate of 1 point for each contribution month.
- (3) Subject to subsection (5), if a contributor does not conform to the theoretical standard, a proportion of 1 contribution point (which may exceed unity) accrues to the contributor in respect of a contribution month equal to the proportion that the amount actually contributed in respect of that month bears to the amount that would have been contributed if the contributor had conformed to the theoretical standard.
- (4) A contributor's extrapolated contribution points as at an entitlement day are calculated as follows:
 - (a) if the contributor has then reached the age of retirement—the number is, subject to subsection (5), the aggregate of the accrued contribution points;

- (b) in any other case—
 - (i) if the contributor has been in full-time employment throughout the contribution period—the number is, subject to subsection (5), the aggregate of the accrued contribution points plus a number equal to the number of months' difference between the contributor's age as at the entitlement day and the age of retirement (an incomplete month being counted as a whole month);
 - (ii) if the contributor has not been in full-time employment throughout the contribution period—the number is, subject to subsection (5), the aggregate of the accrued contribution points plus the relevant proportion of the number of months' difference between the contributor's age as at the entitlement day and the age of retirement (an incomplete month being counted as a whole month).
- (5) When the aggregate of a contributor's accrued contribution points are to be calculated as at an entitlement day, the aggregate cannot exceed—
 - (a) in the case of a contributor who was in full-time employment throughout the contribution period—the number of months of the contribution period;
 - (b) in any other case—the relevant proportion of the number of months of the contribution period.
- (6) The reference in subsections (4) and (5) to *the relevant proportion* is a reference to a proportion arrived at by expressing the contributor's employment while an active contributor as a proportion of full-time employment.

25—Attribution of additional contribution points and contribution months

- (1) The Minister may, in appropriate cases—
 - (a) attribute additional contribution points to a contributor;
 - (b) attribute additional contribution months to a contributor.
- (2) The Minister must provide the Board with details of the attribution of contribution points or months under subsection (1) and the Board must include those details in its report to the Minister under Division 4 of Part 2.

Part 4—Superannuation benefits—new scheme contributors

26—Application of this Part

This Part applies only to new scheme contributors.

26A—Transition to retirement

- (1) A contributor may apply to the Board for the benefit of this section if—
 - (a) the contributor has reached—
 - (i) the age of 55 years; and
 - (ii) his or her preservation age; and
 - (b) the contributor has entered into an arrangement with his or her employer—
 - (i) to reduce his or her hours of work; or
 - (ii) to alter his or her duties,or both, with the effect that there is a reduction in the contributor's salary; and
 - (c) the purpose for establishing the arrangement referred to in paragraph (b) relates to the proposed retirement of the contributor in due course (including by allowing the contributor to scale down his or her work in the lead-up to retirement).
- (2) The Board may require that an application under subsection (1)—
 - (a) be made in such manner as the Board thinks fit; and
 - (b) be accompanied by such information or other material specified by the Board to assist the Board to be satisfied as to the matters set out in paragraphs (b) and (c) of that subsection.
- (3) If the Board is satisfied that a valid application has been made under subsection (1), an entitlement will arise as follows:
 - (a) the Board will determine a benefit (a *draw down benefit*) on the basis of the contributor's application and on the basis that the maximum draw down benefit to which the contributor is entitled will be determined as follows:

$$B = SP \times \frac{(FS - NS)}{FS}$$

Where—

B is the maximum draw down benefit

SP is the amount that would be payable under section 27 and 47B if the contributor had retired from employment immediately before the date of the determination

FS is the contributor's actual salary immediately before the commencement of the arrangement envisaged by subsection (1)(b)

NS is the contributor's actual salary on the commencement of the arrangement envisaged by subsection (1)(b);

- (b) the Board will then, according to an election made by the contributor as part of his or her application to the Board for the benefit of this section, invest (on behalf of and in the name of the contributor) the draw down benefit—
 - (i) with the Superannuation Funds Management Corporation of South Australia; or
 - (ii) with another entity that will provide a non-commutable income stream for the contributor while the contributor continues to be employed in the workforce,so that the contributor receives (and only receives) a payment in the form of a pension or an annuity (a ***draw down payment***) on account of the benefit.
- (4) The investment of a draw down benefit under subsection (3)(b)(i) will be on terms and conditions determined by the Board.
- (5) An entitlement to a draw down payment is not commutable.
- (6) However—
 - (a) a contributor may, after commencing to receive a draw down payment and before retiring from employment under this Act, take steps to bring the investment to an end and pay the balance of the investment into a rollover account (which may need to be established) in the name of the contributor as if the balance were being carried over from another superannuation scheme into the scheme pursuant to section 47B; and
 - (b) the value of an investment under subsection (3)(b)(i) may be redeemed in due course under subsection (11).
- (7) When the Board has determined a draw down benefit—
 - (a) the account maintained by the Board in the name of the contributor under section 20A, and any account maintained for the purposes of section 47B, will be immediately adjusted by a percentage equal to the percentage that the draw down benefit bears to the total benefit that would have been payable had the contributor retired from employment to take into account the payment of the draw down benefit; and
 - (b) the contributions payable by the contributor under section 23 will (despite any provision made by section 23 to the contrary)—
 - (i) be fixed on the basis of the contributor's salary under the arrangement established with his or her employer (for so long as the arrangement continues); and
 - (ii) as so fixed, be payable in respect of this salary from the first full pay period after the Board's determination of the draw down benefit; and
 - (iii) be at the contributor's standard contribution rate under that section; and
 - (c) the contributor's contribution points will accrue, from the date of the determination until the cessation of the relevant arrangement (unless the contributor ceases to make the contributions envisaged by paragraph (b)), at a rate for each contribution month determined as follows:

$$CP = 1 \times \frac{AS}{FSA}$$

Where—

CP is a proportion of 1 contribution point

AS is the contributor's actual salary under the relevant arrangement (as adjusted from time to time)

FSA is the contributor's actual salary immediately before the commencement of the relevant arrangement, adjusted from time to time to take into account any changes to the salary that would have occurred had the contributor not entered into the relevant arrangement but rather continued to be entitled to that salary.

- (8) If the employment arrangements of a contributor who is receiving a draw down payment under this section alter so that there is an alteration in his or her salary—
- (a) in the case of a reduction in salary—the contributor may apply to the Board for a further benefit in accordance with the provisions of this section and this section will then apply to the application and with respect to the relevant arrangement—
 - (i) as if FS under subsection (3)(a) is the contributor's actual salary immediately before the relevant reduction in salary; and
 - (ii) as if NS is the contributor's actual salary immediately after the relevant reduction in salary; and
 - (iii) by applying such other modifications as may be necessary for the purpose or as may be prescribed; and
 - (b) in the case of an increase in salary—the draw down payment will continue as if the increase had not occurred and where the contributor makes contributions to the scheme under this Act in respect of the increase in salary the contributions payable by the contributor and the accrual of contribution points must be adjusted to take into account the increase.
- (9) When a contributor retires from employment (and is thus entitled to a benefit under section 27), the contributor's entitlement under section 27 will be adjusted in the manner prescribed by the regulations to take into account the draw down benefit provided under this section (and that section will then have effect accordingly).

- (a) the application will be taken to be an election under that section; and

- (b) the amount of entitlement payable under that section will be added to the draw down benefit under subsection (3)(a) (and then invested under subsection (3)(b)).
- (13) Despite a preceding subsection, if the maximum draw down benefit under subsection (3)(a) is not sufficient to be invested under subsection (3)(b) to obtain a draw down payment—
- (a) unless paragraph (b) applies—the draw down benefit must be an amount equal to the minimum required to obtain a draw down payment (and subsection (3)(a) will apply accordingly);
 - (b) if the minimum amount required to obtain a draw down payment is greater than SP under subsection (3)(a), the Board must reject the application under this section (and no entitlement will arise under subsection (3)).
- (14) The determination of a benefit under this section must take into account the operation of any provision under Part 5A.
- (15) The Governor may, by regulation, declare that any provision of this section is modified in prescribed circumstances (and the regulation will have effect according to its terms).

- (11) If a contributor's employment terminates on account of invalidity in circumstances that give rise to an entitlement under section 37, the entitlement under that section will be adjusted in the manner prescribed by the regulations to take into account the fact that the contributor had elected to receive a draw down benefit under this section (and that section will then have effect accordingly).
- (12) If a contributor's employment is terminated by the contributor's death, any entitlement under section 38 will be adjusted in the manner prescribed by the regulations to take into account the fact that the contributor had elected to receive a draw down benefit under this section (and that section will then have effect accordingly).

- (1) The Board will, on the application of a person who is entitled to a pension (other than a temporary disability pension or an eligible child's pension), commute a pension, or a proportion of a pension, to a lump sum payment.
- (2) The right of commutation is subject to the qualifications prescribed by regulation.
- (3) In the commutation of a pension, commutation factors promulgated by regulation will be applied.
- (4) The amount of a commutation factor fixed under subsection (3) may reflect the loss of the benefit provided by section 38(4)(a) or section 47(3) as a result of the commutation of the pension or a proportion of the pension.

40A—Commutation to pay deferred superannuation contributions surcharge

- (1) The Board will, on the application of a contributor who is entitled to a pension (other than a temporary disability pension) and who is liable for a deferred superannuation contributions surcharge, commute so much of the pension as is required to provide a lump sum equivalent to the amount of the surcharge.
- (2) An application under subsection (1) must be made in writing to the Board before the expiration of the period of 3 months immediately following the date on which the notice given to the contributor by the Commissioner of Taxation under section 15(7) of the Superannuation Contributions Tax Act was issued.

 - (ii) a contributor who is liable for a deferred superannuation contributions surcharge dies within 3 months after the issue of such a notice without having commuted his or her pension under subsection (1); and
 - (b) the contributor is survived by a spouse who is entitled to a pension as the contributor's spouse under this Act,

the Board will, subject to subsection (5) on the application of the spouse, commute so much of the spouse's pension as is required to provide a lump sum equivalent to the amount of the surcharge.

- (4) An application under subsection (3) must be made in writing to the Board before the expiration of the period of 6 months immediately following the contributor's death or the issue of the notice under section 15(7) of the Superannuation Contributions Tax Act, whichever is the later.
- (5) The Board must not commute a pension under subsection (3) unless it is satisfied that the resulting lump sum will be applied in payment of the surcharge or be used to reimburse the deceased contributor's estate, or the spouse or other person who has paid the surcharge on behalf of the estate.
- (6) The commutation factors to be applied in the commutation of a pension under this section will be determined by the Treasurer on the recommendation of an actuary.
- (7) If the Board is satisfied that—
 - (a) a contributor, or the spouse of contributor, is entitled to commute the whole of his or her pension under section 40 and has done so except for a part that the contributor or spouse wishes to retain for the purpose of commutation under this section in order to pay the contributor's deferred superannuation contributions surcharge; and
 - (b) after commutation under this section for that purpose there will still be a part of the pension remaining uncommuted; and
 - (c) the part of the pension originally retained for commutation under this section was a reasonable estimate of the amount of the pension that would be required for that purpose,

the Board will, on the application of the contributor or spouse made at the same time as his or her application under subsection (1) or (3), commute the remaining uncommuted part of the pension using the factors applicable under section 40.

40B—Interaction with judicial remuneration or pension entitlements

- (3) An application for commutation must be made—
 - (a) in the case of a suspension under subparagraph (i) of subsection (1)(b)—within 6 months after the pension is suspended due to the circumstances applying under that subparagraph;

- (b) in the case of a suspension under subparagraph (ii) of subsection (1)(b)—within 3 months after the pension is suspended due to the circumstances applying under that subparagraph.
- (4) If—
 - (a) an application is not made under subsection (3)(a); and
 - (b) the person ceases to receive salary as a Judge for judicial service without an entitlement to a judicial-related pension,

the suspension will cease.

- (5) If an application is not made under subsection (3)(b) within the period that applies under that provision, it will be taken that the person has made the application in any event.
- (6) In making the commutation, commutation factors promulgated by regulation will be applied.

 - (c) to avail himself or herself of specified assistance.
- (2) The cost of a medical examination under this section will be met by the Board.

42—Suspension of pension if pensioner declines appropriate employment

- (1) If appropriate employment is offered, at the request of the Minister, to an invalid or retrenchment pensioner who has not reached the age of retirement, the following provisions apply:
 - (a) if the pensioner accepts the offer and returns to employment—the pension will terminate but the former pensioner will be credited with contribution points and contribution months as if he or she had continued in employment and contributed at the standard contribution rate over the period of absence from employment;
 - (b) if the pensioner does not accept the offer—the Board may suspend the pension until the pensioner reaches the age of retirement.

- (2) In determining whether a particular form of employment is appropriate to a particular pensioner, the following factors will be taken into account—
 - (a) the pensioner's qualifications;
 - (b) the pensioner's previous employment;
 - (c) the pensioner's state of health;
 - (d) the place at which the employment is available.
- (3) Employment will not be regarded as appropriate to a particular pensioner if the rate of salary applicable to the employment (expressed as an hourly rate) is less than 80 per cent of the rate of the pensioner's notional salary (expressed as an hourly rate).

42A—Offer of lump sum to certain invalid pensioners

- (1) If—
 - (a) the Board is satisfied on the advice of 2 medical practitioners that an invalid pensioner who has not reached the age of retirement is fit to be employed in full time or part time employment; but

the Board may offer to pay a lump sum to the pensioner instead of his or her pension.

- (2) The amount of the lump sum will be the greater of the following:
 - (a) an amount equivalent to the amount that would be produced by commutation of the whole of a pension calculated as follows:

$$P = \frac{P_1 \times (360 - M)}{360}$$

Where—

P is the pension

P₁ is the pension to which the pensioner was entitled immediately before the payment of the lump sum (expressed as an annual amount)

M is the number of complete months between the time when the lump sum is paid and when the pensioner would reach the age of retirement;

- (b) an amount equivalent to 3 times the amount of the pensioner's annual pension immediately before the lump sum is paid.
- (3) For the purposes of the commutation referred to in subsection (2)—
 - (a) the commutation factors applicable on the commutation of a retirement pension will be used; and
 - (b) the contributor's age will be taken to be his or her age when the lump sum is paid or 55 years whichever is the greater.

- (a) a contributor becomes entitled, on termination of his or her employment, to a pension; and
- (b) the contributor was, immediately before termination of employment, entitled to a period of recreation leave and is paid, or entitled to, a lump sum in lieu of that leave,

the contributor's employment will be taken to have been extended for a period equivalent to the period of recreation leave and the contributor is liable for contributions in respect of that period and is entitled to benefits at the end of that period as though he or she had remained in employment and had received the lump sum as salary during that period.

43AA—Closure of contribution accounts

 - (ii) is in receipt of a pension under this Part; or
 - (c) the contributor has died.
- (2) If, after a contribution account has been closed under subsection (1), a benefit becomes payable under this Part that depends wholly or partly on the balance standing to the credit of the account, the benefit will be determined on the basis of the balance that would have stood to the credit of the account if it had not been closed.

- (2) A reduction in the entitlement of a contributor will be given effect as follows:
 - (a) the contributor's contribution account will be subject to a charge that takes effect by reducing the balance of that account at the operative time (insofar as a balance exists) by a percentage equal to the percentage that the non-member spouse's share in the relevant superannuation interest bears to the total value of the contributor's accrued superannuation benefit at the operative time (and any relevant method or factor that applies under section 43AD will be applied); and
 - (b) except with respect to a pension in the payment phase, any entitlement in respect of a pension in the growth phase and any employer-funded component of a superannuation benefit payable to the contributor after the creation of the relevant interest for the benefit of the non-member spouse will, as from the operative time, be subject to a reduction that takes effect by reducing—
 - (i) the number of contribution points; and
 - (ii) factors "M" and "n" in a formula under this Act (insofar as they are relevant to a determination of an employer-funded component in the particular case),to the extent necessary to take into account, to its full extent, the employer-funded component of the value of the non-member spouse's interest (and any relevant method or factor that applies under section 43AD will be applied); and
 - (c) any pension in the payment phase will, depending on the terms of the splitting instrument, be reduced by—
 - (i) the value of the non-member spouse's share in the relevant superannuation interest; or
 - (ii) the percentage of the relevant superannuation interest to be shared with the non-member spouse.

- (3) A reduction in the entitlement of a contributor will not extend to any superannuation benefit that is not a splittable payment under Part VIIIB of the *Family Law Act 1975* of the Commonwealth.
- (4) A reduction in contribution points in connection with the operation of this Part does not affect the aggregate of contribution points that would apply under section 24 but for the operation of subsection (2).

- (6) If a contributor has received a draw down benefit under section 26A or 33A—
 - (a) the superannuation interest of the contributor will be taken to include the balance of any draw down benefit that is being held under section 26A(3)(b)(i) or an entitlement under section 33A; and
 - (b) any entitlement under section 26A or 33A will be adjusted to take into account the effect of a payment split under this Part.

- (3) If an eligible child of a deceased contributor is receiving or entitled to receive weekly workers compensation payments in consequence of the contributor's death, the following provisions apply—
 - (a) if the weekly workers compensation payments equal or exceed the amount of the pension, the pension will be suspended;
 - (b) in any other case, the pension will be reduced so that the aggregate equals the pension that the child would have received if there had been no entitlement to workers compensation.
- (4) If a right to weekly workers compensation payments has been surrendered in whole or in part by commutation or by agreement, the person who would have been entitled to those payments if the right to them had not been surrendered will be taken, for the purposes of this section, to be receiving them unless—
 - (a) if the person is a contributor—the contributor has reached the age of retirement; or
 - (b) if the person is the spouse of a deceased contributor—the contributor would have reached the age of retirement if he or she were still alive.

- (2) If on the first day of the relevant adjustment period, the pension has been payable for a period of less than 6 months, the extent of the adjustment will be reduced to reflect the proportion which the period of payment of the pension bears to 6 months.
- (3) If the pension was partially commuted to a lump sum under the repealed Act and no further commutation has occurred under this Act, the variation will be based on the amount of the pension that would have been payable if the commutation had not occurred rather than on the actual pension.
- (4) To avoid a reduction in pensions the Treasurer may direct that subsection (1) does not apply in relation to a particular adjustment period.
- (5) In that event an adjustment in the next adjustment period in relation to which subsection (1) applies will be based on the variation between the Consumer Price Index for the June or December quarter (whichever is applicable) immediately preceding that period and the Consumer Price Index for the June or December quarter (whichever is applicable) immediately preceding the adjustment period in relation to which subsection (1) last applied.

- (d) the Treasurer.

2—Prior action

Any step taken by a relevant authority before a section of this Act is brought into operation that corresponds to a step that may be taken by the relevant authority under a relevant Act after this Act is brought into operation will be taken to be valid and effectual for the purposes of a relevant Act as if it had been taken after the commencement of this Act.

3—Instruments

Any splitting instrument, or other instrument, lodged with a relevant authority before the commencement of this Act may take effect for the purposes of a relevant Act after the commencement of this Act.

4—Other matters

- (2) A provision of a regulation under subclause (1) may, if the regulation so provides, take effect from the commencement of this Act or from an earlier day, but not before 28 December 2002.
- (3) To the extent to which a provision takes effect under subclause (2) from a day earlier than the day of the regulation's publication in the Gazette, the provision does not operate to the disadvantage of a person by—

 - (b) imposing liabilities on the person.
- (4) The *Acts Interpretation Act 1915* will, except to the extent of any inconsistency with the provisions of this Schedule (or regulations made under this Schedule), apply to any amendment effected by this Act.

Superannuation (Administered Schemes) Amendment Act 2006, Sch 1

5—Interpretation

In this Part—

principal Act means the *Superannuation Act 1988*.

6—Transitional provision

Subsections (2) and (3) of section 56 of the principal Act (as enacted by this Act) do not apply with respect to a matter where the relevant time limit expired, or the procedural step was required to be taken, before the commencement of this clause unless the South Australian Superannuation Board is satisfied, on application by a person seeking to obtain the benefit of this clause, that the failure to comply with the time limit or procedural step was attributable to a person's physical or mental disability at the relevant time.

Statutes Amendment (Domestic Partners) Act 2006

209—Transitional provision

An amendment made by a provision of this Act to a provision of the *Superannuation Act 1988* that relates to the payment of a pension, lump sum or other benefit to a person on the death of a contributor applies only if the death occurs after the commencement of the amendment.
